

## Confirmation

We, the manufacturer Weinmann Geräte für Medizin GmbH + Co. KG, KronsaaSweg 40, 22525 Hamburg, confirm that the following devices are suitable for use in aircraft:

**Oxygen cylinder, filled, 2.0 l x 200 bar (WM 1822)**

**Oxygen lightweight cylinder, filled, 2,0 l x 200 bar (WM 1814)**

**Oxygen cylinder, filled, 0.8 l x 200 bar (WM 1818)**

**Oxygen cylinder, filled, 0.3 l x 200 bar (WM 1812)**

**OXYTRON 3 Mobil, Electronic oxygen conserving device with separate pressure reducer**

**CYPRESS Mobil, Pneumatic oxygen conserving device with integrated pressure reducer**

**OXYMAT 3, Oxygen concentrator**

The oxygen cylinders fulfill the pressure tank rules 1999 / 36 / EG.

The electronic oxygen conserving device and the oxygen concentrator fulfill the standards involving electromagnetic compatibility, EN 55011 / 1997 (Radio Interference) and EN 61000-4-2 to 6 / 1995 (Immunity to Interference).

The pressure reducers fulfill the product standards EN 738-1 / 1997 (pressure reducer with medical gases).
